DOORYARD ROSES

An enthusiastic welcome has been accorded the new Dooryard Roses, unique 1937 introductions that combine beauty with hardiness (arcticness). Blossoming almost continuously, with pretty pink blooms the size of a Hybrid Tea, the Dooryard Roses grow sturdily to a height of about 2 feet and spread out on the order of a Pfitzer juniper. Their stems make them excellent for cutting and their fragrant blossoms last well. The Dooryard Roses are a new type of Rose especially resistant to cold, mildew, and black-spot.

Mrs. Frank Stearns. Named by delegates to the annual meeting of the National Council of State Garden Clubs. A lovely shade of pink. \$2.00 each.

Dooryard Delight. Another Dooryard Rose, hardy and very disease-resistant. The bushes are lower growing than the above and the foliage is especially deep green. \$2.00 each.

Plant Wyant Roses This Fall

THE BEST TIME TO PLANT IS IN THE FALL AND THE BEST ROSES TO PLANT ARE WYANT ROSES

Roses planted in the fall start growth at the normal time in the spring and will give you better results the first year than those planted in the spring can possibly do.

Carefully studied reports from thousands of our customers establish October 20 to November 20 as the best time to plant Wyant Roses in this latitude. The soil and weather conditions are much more favorable then and, if the simple planting instructions enclosed with each order are followed, there is very little danger of winter losses.

Fall planting brings you the pick of the crop; the plants are freshly dug, and you are sure of getting the variety you want.

If you have planted Wyant Roses you know the quality; if you are not a customer, a trial order will convince you that there are no better

Roses grown than those produced here in our Mentor Nursery.

We grow Roses not only to make a living but because we love them, and all of our energy is expended in growing the best plants of the best varieties we can find.

The rugged Mentor climate takes care of all the weaklings, so that we cannot afford to grow anything but the best.

Through contracts with the introducers we now grow many of the patented varieties ourselves, so you are assured of quality plants of these as well as of the unpatented varieties.

We bud on both seedlings and cuttings, both types producing fine, branched, well-formed root systems.

Order now for fall planting. Price-list is enclosed.

My Favorite DOZEN

HERE are twelve Roses which have proved themselves in our Nurseries and have pleased our many customers. They cover the entire range of Rose shades, and will not only furnish continuous color in your garden through the entire season, but they will provide long stemmed, fragrant cut-flowers for the house.

We have grown a large quantity of the varieties making up this dozen, and have made the price so low that everyone can afford at least one dozen of these easy-to-grow Roses. At this price why not plant several dozen and have a real display next summer?
